SUMMARY:

A passionate Front end engineer with an experience in Fullstack engineering.

TECHNICAL SKILLS:

- **Frontend** - Javascript, React Js, Next Js, TypeScript
- **Backend** - Node Js, Spring Boot , Java
- **Database** : MY SQL, Postgres , MongoDB, Supabase, Prisma

EXPERIENCE:

Software Engineer - HSBC Technologies | August 2023 - Present

- Contributed to the development of microservices architecture using Spring Boot framework , gaining practical experience in software engineering principles and best practices.
- Implemented a Search feature in the UI using React Js to fetch data based on certain criteria.
- Supported containerization efforts using Docker and aided in the deployment orchestration with Kubernetes, acquiring foundational knowledge in modern DevOps practices.

PROJECTS:

1. **Realtime Chat App**: FullStack Chat App where users can sign up ,log in, send friend requests, chat with friends, create group chats. [\[LINK\]](#)
Tech Stack : Next Js ,Convex DB, TypeScript, Tailwind , Clerk Auth
 - Front end development using Next Js 14 (App router) ,responsive UI
 - Backend development using convex functions in typescript
 - Authentication using Clerk service
2. **Spotify clone**: FullStack Application where users can login,signup,upload ,listen and like songs [\[LINK\]](#)
Tech Stack : Next Js ,Supabase, TypeScript, Tailwind , Supabase auth
 - Front end development using Next Js 14 (App router) ,responsive UI
 - Backend development using supabase APIs
 - Database management using Supabase SQL (for text) and bucket (for songs) storage
 - Authentication implemented using Supabase APIs
3. **Twitter Clone**: FullStack Application where users can login,signup, create posts (text/image), like post, comment post, follow , unfollow users. [\[Link\]](#)
Tech Stack : Next Js ,MongoDB, TypeScript, Tailwind, Prisma, Auth JS
 - Front end development using Next Js 14 (App router) ,responsive UI
 - Backend development using Next Js routes and action servers
 - Database management using MongoDB for text and Uploadthing for images
 - Authentication implemented using Auth Js

EDUCATION:

MIT World Peace University Pune | BTech in Computer Science | July 2019 - June 2023 | 9.32 CGPA
